ON THE TERMINATION OF THE

FIRST HALF OF THE 19TH CENTURY.

What a half Centry this has been!
The like before was never seen.
Pray tell me some one if the true,
That nought beneath the Sun is new?
Whether or no, you'll perhaps agree
That much is new to you and me.
Was Babylon lit up, with gas?
If so, I never beard it was.
Did Israel or Eryct use
The electric fluid to spread the news?
Did Rome's proud gallers plough the seus.
Regardless of the adverse breeze?
Or prythee tell me did the Medes
Have Rairond cars and I ron steeds!
Did Athens drive her Napte prosses.
Her looms for wearing indies drease.
Refine her sugar, make ice cream?
And candies by the aid of stean?
Or furnish candies cheap as I?
Who says they could? "How folks will lie"
So Byron says—from bint I quote;
(These were the very words he wrote,)
Though somewhat coarse, the style is his,
Normine, my friends, slon't think it is
Heron of Greece the method found,
By steam to make a globe go round. (See Ewbank's
But answer Delphos: Did he dream
Of going round the Globe by steam?
Let North and South firmly unite.
(Two wrongs can never make one right.")
Then round the world we'll gird a belt
And make the Yanke power felt
Let us combine then heart and soul,
We'll shake the World from Pole to Pole! If naught is new, full well I wot
A great deal must have heen forgot.
Doubless much has, my friends, and yet I hope that you will not forget,
To make your purchases in season.
My stock is large, and yet too small,
I fear, to satisfy you all.
They will are best who come the first;
They will a teste she we come the first;
They will are best who come the first;
They will a teste she something new.
That will at teste she something new.
That will at teste she something new.

SEWING MACHINES.

SEWING MACHINE.—SINGER & PHYLYS'S Belay Stilch Sowing Machine, pronounced by competent judges to be, for real utility, for superior to

escribers, postings paid scribers, postings, Mass. Singer & PHELPS, Boston, Mass. N. R. An Agent is wanted in every town in the United States. All applications must be post paid. SEWING MACHINES—CAUTION.—

SEWING MACHINES—CAUTION.—
The subscribers, owners of the ROTARY SHUTTLE MACHINE, patented Oct. 1818, hereby Caution the Public against prochasing or using Machines which infringe upon their priest, as they will prosecute to the extent of the law all such infringences.

Our machines are now offered for sale for the first time. They have been in use in this city for one year. One firm has head ten thousand dozen Cooli and Phiso Caps. Several other compenies have employed them very profusibly in making clothing, carpet and grain bags, and for other purposes. There are a number now in use sattle factory of H. W. Banks & Co. Elm, corner of Canal-st, where those wishing to purchase are invited to call and see them in operation. Mosers H. W. B. Co. are suborded to make sales of Bights or Machines for use in this city.

These machines are as easily managed, that a child of 14 years of age has kept coveniums (which are propelled by steam and employed in maxing bags) in good order for some months pusi, attending at the same time to the running of her own machines and obing with it the work of four adults if sewing by band.

These machines can be driven by hand, treddle, or steam power. To persons wishing to make an experiment before buying, a machine would be rented at a moderate price.

We confidently assert that these are the only machines of real practical utility, and while we myite an examination of the machines a now in operation, we repeat our cantion against infringements, which will certainly be prosecuted.
